NOMAD PMS

Hotel Property Management System

Run your property smarter. Serve guests better. Grow with confidence.

FRONT OFFICE • POINT OF SALE • BANQUETING & CONFERENCING • INVENTORY • ACCOUNTS

One Platform for Your Entire Hotel

Nomad PMS is an intuitive, all-in-one hotel management system built to streamline day-to-day operations, improve efficiency, and give management clearer control of the property. From reservations and check-in to restaurant sales, stock, accounts and reporting, Nomad PMS brings your key operations together in one solution.

Designed Around Hotel Operations

Front Office

Manage guest check-in/check-out, room bookings, room status, housekeeping, arrivals, departures and room forecasting.

Point of Sale

Run restaurants, bars, lounges and other outlets with orders, bills, receipts, multiple printers, waiter tips and cashier cashouts.

Inventory Control

Control purchasing and stores with LPOs, material requisitions, stock taking, material issuing and inventory management.

Accounts Management

Manage vendors, customers, chart of accounts, ledger transactions, expenses, revenue, taxes and financial reports.

Built for Modern Hospitality

Nomad PMS is suitable for hotels, resorts, lodges, guest houses and other hospitality properties. Its modular approach allows your teams to work from a shared operational system while maintaining controlled user access.

Banqueting & Conferences

Manage conference facilities, bookings, customer invoices and event requirements while reducing the risk of double booking.

Back Office & Reporting

Access sales, tax, operational, audit and analysis reports using different parameters for stronger management decisions.

FASTER

Day-to-day workflows

SMARTER

Reports & analytics

CONNECTED

Integrated operations

The Nomad PMS Advantage

Everything your team needs to operate with greater control.

Custom User Roles & Access

Assign permissions to different team members for secure and efficient operations.

Automated Invoicing & Tax Compliance

Generate invoices and support tax-compliant workflows through eTIMS integration.

Event & Conference Management

Plan and manage meetings, conferences and hotel events with organised scheduling.

Smart Door Lock Integration

Connect compatible electronic hotel lock systems to improve security and guest convenience.

Secure Access & Data Protection

Advanced security features, secure login options and encrypted backup processes.

Implementation & Training

Get initial setup and user training to help your team operate effectively from day one.

What Nomad PMS Helps You Achieve

- ✓ Streamline reservations, check-in and check-out.
- ✓ Keep room and housekeeping information organised.
- ✓ Connect hotel operations with restaurant and bar sales.
- ✓ Maintain tighter control over purchasing and stock.
- ✓ Improve financial visibility through integrated accounts and reports.
- ✓ Support electronic tax invoicing through KRA eTIMS integration.
- ✓ Give managers timely information for better decisions.

Local Expertise. Practical Support.

SaliQ Software Solutions provides software implementation, setup, user training and technical support. Our approach combines hospitality technology with practical support so your team can get the most from the system.
